Rencana Perkuliahan

Software Pencil Wireframe

Adobe XD

Code.org

Thunkable.com

LESSON PLAN

ANTARMUKA APLIKASI

[PESANTREN PeTIK]

Pert	Tanggal		Materi Perkuliahan	Skenario		Tugas		Keterangan
1	Jan	17	Software Development Life Cycle	Proses pembuatan aplikasi, requirement, timeline, proposal	Kel	Office	Membuat proposal pembuatan aplikasi	On the spot score
2	Jan	24	Mengukur User Experience	Memahami UI dan UX, Teknik pengumpulan data, Kriteria kualitas aplikasi web	Kel	Paper	Mengukur kualitas web	On the spot score
3	Jan	31	User Persona	Jenis persona, fungsi, teknik pembuatan persona	Ind	Paper	Membuat proto persona mahasantri PeTIK	On the spot score
4	Feb	07	Membuat Wireframe	Simbol-simbol wireframe	Kel	Pencil	Membuat wireframe web	On the spot score
5	Feb	14	Presentasi Wireframe	Form penilaian	Kel	Office		Survey
6	Feb	21	Membuat Mockup	Tool pencil, plugin, layout, save, perbedaan wireframe dan mockup	Kel	Pencil	Membuat mockup web	
7	Feb	28	Presentasi Mockup	Form penilaian				Survey
8	Mar	06	Ujian Tengah Semester	Praktek: Membuat desain mockup				
9	Mar	13	Membuat Prototipe Standar	Tool XD, desain obyek, link	Ind	AXD	Membuat prototipe aplikasi android	On the spot score
10	Mar	20	Mengenal Code.org	Proses kerja code.org	Ind	Cod	Hour of Code	On the spot score
11	Mar	27	Login dan Pagination	Text, label, button, image, color, screen, block code	Ind	Cod	App Lab	
12	Apr	03	Presentasi aplikasi Code.org	Form penilaian				Survey
13	Apr	17	Mengenal Thunkable	Layout aplikasi, tool thunkable, changing screen, export project				
14	Apr	24	Membuat aplikasi android	block code, logical if, properti element	Ind	Thu	Membuat aplikasi android	
15	Apr	27	Presentasi aplikasi android	Form penilaian				Survey Pengganti (10/4)
16	Mei	08	Ujian Akhir Semester	Praktek: Membuat prototipe XD				

bit.ly/anappetik

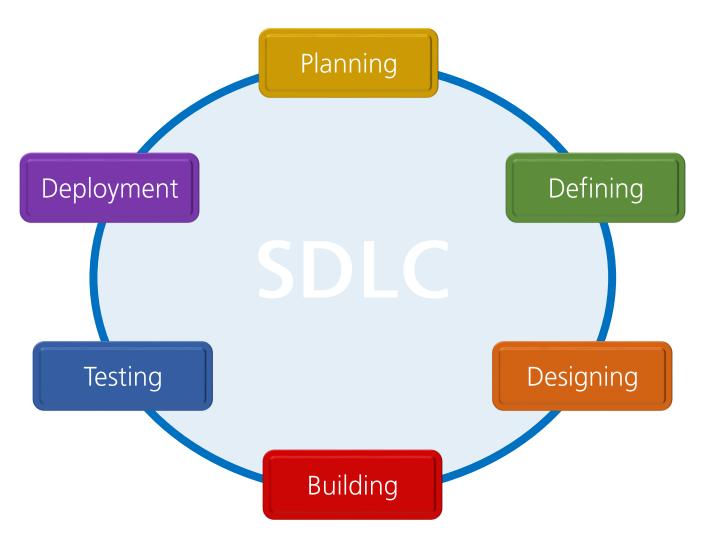

Apa yang harus dikuasai untuk membuat aplikasi?

Bagaimana sebenarnya cara membuat aplikasi?

Software Development Life Cycle

Planning and Requirement Analysis

- Performed by the senior members of the team with inputs from the customer, the sales department, market surveys and domain experts in the industry
- Planning for the quality assurance requirements
- identification of the risks associated with the project

- Clearly define and document the product requirements
- Create Software Requirement Specification (SRS) Documents
- Wireframing software
- Get approved from the customer or the market analysts

Designing the Product Architecture

- Usually more than one design approach for the product architecture is proposed
- Create Mockup or Prototype
- Create Design Document Specification (DDS)

Building or Developing the Product

- The actual development starts and the product is built
- The programming code is generated as per DDS during this stage

Testing the Product

- Test product defects are reported, tracked, fixed and retested, until the product reaches the quality standards defined in the SRS
- The testing activities are mostly involved in all the stages of SDLC

6

Deployment in the Market and Maintenance

- The product may first be released in a limited segment and tested in the real business environment (UAT- User acceptance testing)
- Then based on the feedback, the product may be released as it is or with suggested enhancements in the targeting market segment

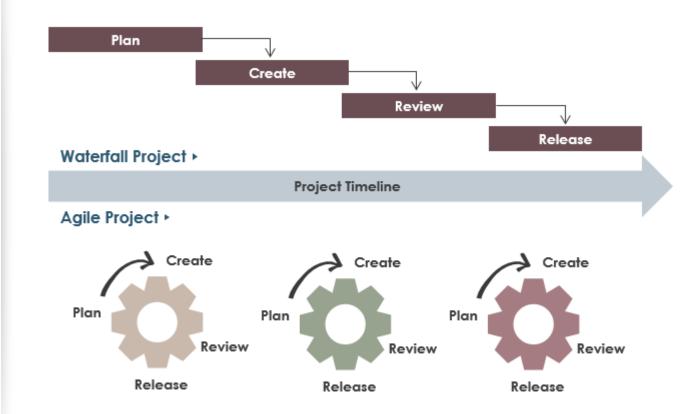

SDLC Models

- Waterfall Model
- Iterative Model
- Spiral Model
- V-Model
- Big Bang Model
- o Agile Model
- o RAD Model
- Rapid Application Development and Prototyping Models

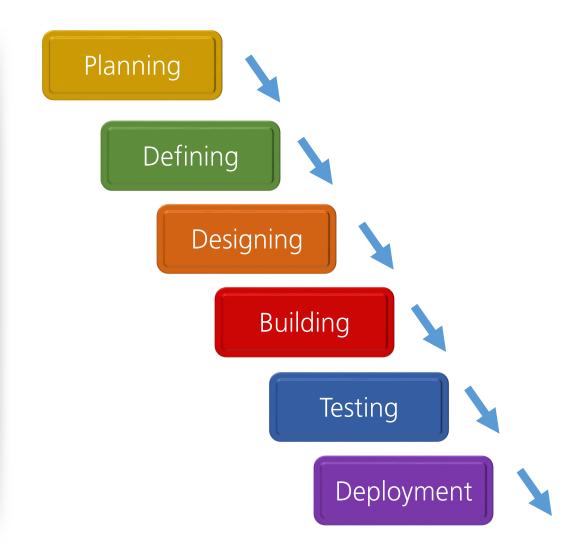

Traditional vs Agile Approaches

Waterfall Methods

Struktur Proposal

- Pendahuluan (min: Latar Belakang, Perumusan Masalah, Tujuan)
- Daftar Requirements
- Mockup aplikasi
- Metode pelaksanaan proyek
- o Rincian Biaya
- Timeline pembuatan

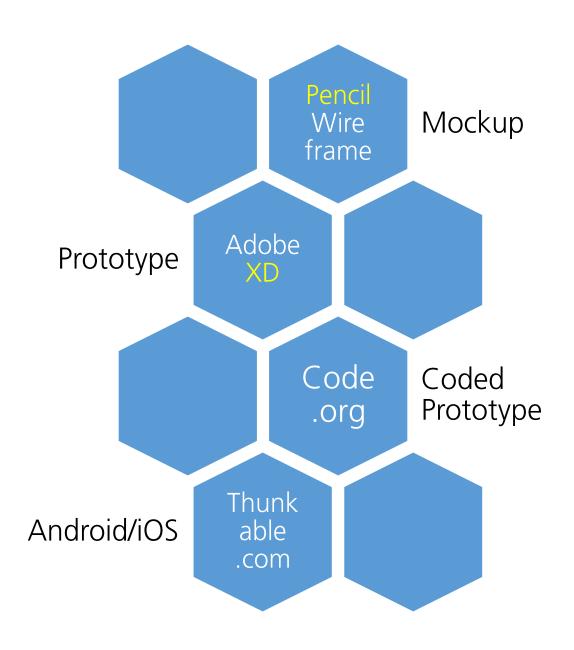

Kesimpulan hari ini

- Pembuatan aplikasi tidak hanya tentang "ngoding"
- Harus hati-hati dalam mengerjakan proyek
- Sistem keterbukaan dan saling menjaga kepercayaan harus diutamakan
- Gunakan data valid

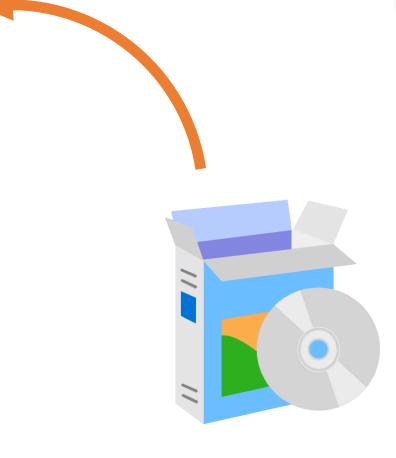

Tugas

- Kelompok
- Buat Proposal
- Pembuatan aplikasi berbasis web untuk penjualan oleh-oleh khas Depok
- Pembeli dapat berkomunikasi langsung
- Teknik pembayaran transfer dan COD
- Send proposal ke kuswana.nanang@gmail.com dan mufatihiali@gmail.com

Harus disiapkan!!

Jalan Mandor Basar Nomor 54, RT. 01/001, Rangkapanjaya, Pancoran Mas, Kota Depok 16435
